Project Care: Premier North India Healthcare Platform

Strategic Growth & Consolidation Opportunity in Tier-II Markets

Business Overview

- **30 year legacy** super specialty hospital platform with three hospitals across North India
- Platform has scaled rapidly with Revenue and EBITDA CAGR of 23% and 48%, respectively, over FY23-26E
- **Well-diversified specialty mix** with oncology and orthopaedics as the key contributors
- Led by Founder Doctor and family who have a deep expertise and a good reputation of operating in the region
- **Visible growth based on the advanced pipeline** of new hospitals in the next 24 - 36 months
- Raising the first minority institutional round

Financial Overview

FY (INR mn)	FY23A	FY24A	FY25A	FY26E	FY32E	CAGR ¹
Hospitals	2	3	3	4	9	
Beds	593	813	848	1,215	2,340	27%
Revenue	3,989	5,099	6,479	7,494	26,311	23%
% YoY growth		27.8%	27.1%	15.7%	9.5%	
EBITDA	487	701	1,265	1,592	6,268	48%
EBITDA %	12.2%	13.8%	19.5%	21.2%	23.8%

RoE	7.2%	7.8%	24.8%	15.3%	22.3%	

Located in the underpenetrated North India market

Focus on higher-end tertiary care specialties

1. CAGR is shown for FY23-FY26

2. Specialty mix is for the flagship unit which constitutes 75% of the annual revenue

Paragon Focus on Healthcare delivery (1/2)

Extensive healthcare operating and investing experience in the team

Niten Lalpuria
Partner

- Ex-Cipla: Led API BD & Strategy and Global Animal Health businesses
- Drove USD 500 mn US acquisition as Head of Strategy
- Co-founded biomedical diagnostics startup in the US; Sold to Abbott
- Holds 16+ US patents in medical devices

Somi Rai
Managing Director

- Investor in Sahyadri Hospitals (2012) during the early phase of its growth
- Worked with the management on acquisition framework, MIS and supported banking interactions
- Business evolved from a small chain to a regional player, eventually sold to large strategic in 2025

Activity in last 24 months

- Actively tracking 30+ healthcare assets, met with 20+ Founders across the country
- Built pipeline of high-quality, under-researched regional players demonstrating strong unit economics & expansion potential
- Submitted term sheets for four assets
- Selective approach driven by valuation discipline, profitability, IPO-ability and governance

Paragon Focus on Healthcare delivery (2/2)

Paragon has cultivated a robust pipeline of multi-specialty hospitals

Healthcare work done by Paragon

- Engaged with advisors with deep background in healthcare delivery to develop a thesis on multi-specialty hospitals
- Landscaping of the entire healthcare delivery universe to source proprietary deals – a) Evaluated 17+ deals in hospitals space in the last one year and developed a pipeline of 30+ assets
- Hospitals sector deal analysis to conclude – a) Increase in deal activity and PE backed platforms post 2020 due to above mentioned thesis and b) average IRR of 23% for exited/partial stake sold deals that establishes credibility

Deal funnel

Industry Attractiveness

- Healthcare delivery in India (especially tier-II and beyond cities) is severely underpenetrated
- Availability of multiple investment opportunities as healthcare gets more organized and there is an increase in insurance penetration (insurance penetration expected to increase from 39% in 2023 to 45-50% by 2026)
- Ample exit opportunities via increasing appetite for IPOs or multiple large PE backed platforms
- Multiple arbitrage between public and private comps creates a compelling deal for private equity investors

Hospital beds by country (per 10,000 population)

Investment Thesis (1/2)

Thesis	Description
Doctor Led	• Founder Doctor, a reputed and respected clinician, established Project Care and scaled it from a 5-bed clinic in 1991 to an 800+ bed hospital platform today • Grown the business organically and with a disciplined capital allocation approach without any external funding. Prioritized balance sheet strength along with a measured expansion over the years • Apart from being clinically active, he currently manages doctor relationships and oversees recruitment of clinical talent across units. Additionally, he provides overall strategic direction for the platform and remains involved in critical high-level decisions • Doctor is supported by a few family members including his nephews and sons who have clear roles and responsibilities since last 12 years and have been responsible for the expansion across new units
Under-penetrated Market	• India continues to have low hospital bed density (15 beds per 10,000) which is even lower in the Tier II/III regions (~10 beds per 10,000), signalling a large capacity gap compared to global averages • Lack of good quality medical care in Tier II/III cities has led to patients traveling long distances for better quality medical treatment at a significantly higher overall cost • Compelling need for hospital platforms focused on Tier II/III cities providing quality tertiary care at reasonable costs (FY24E addressable market size of INR 6,300 bn¹ with FY24-28 CAGR growth of ~12%)
Strong Operating Performance	• Established a strong track record of growth, Revenues and EBITDA have grown at a CAGR of 23% and 48%, respectively from FY23 to FY26E. All units are profitable with two units at 20%+ EBITDA margins • Platform has registered healthy RoCE and RoE of 19.8% and 24.8%, respectively in FY25 • Since the past few years, management has been focused on adding higher tertiary specialties (cardio, surgery, onco and ortho) resulting in strong ARPOB CAGR of 16% (FY19-25) • Demonstrated expansion via asset-light greenfield models with the newest facility (Unit 3) breaking even within 12 months

1. Source: Park Hospitals DRHP (2025)

Investment Thesis (2/2)

Thesis	Description
Visible Growth Drivers	• Leverages a 30-year legacy in a high-growth North India micro-market, successfully capturing mid-to-upper income patients as an affordable tertiary care alternative to national chains like Apollo and Fortis • Anchored by High-Performing Flagship: The platform is supported by a robust 400+ bed flagship unit delivering >20% EBITDA margins, serving as an anchor operational hub to drive expansion into contiguous districts and adjacent corridors • Clear Trajectory to 9 Hospitals. Validated scalability with the Nov-25 acquisition (totaling 1,215 beds) and a defined pipeline to reach 9 units by FY30; projected to deliver Revenues of INR 26,311 mn and EBITDA of INR 6,268 mn EBITDA by FY32
Attractive Entry Pricing	• Significant Valuation Discount: Entry at 16.1x EV/NTM EBITDA offers a compelling ~30% discount to the 5-year median of listed peers (23.0x) and is priced below the median of recent precedent transactions (17.2x). • Robust Return Profile: Based on the disciplined entry valuation, expecting a high-confidence return profile, targeting a Gross INR IRR of 30.8% and a 3.8x MoIC over a 5-year investment horizon. • Clear Arbitrage & Rerating Potential: Capitalizes on the valuation arbitrage between private and public markets, with a clear path to multiple expansion via an eventual IPO or strategic exit comparable to high-ROCE peers like Jupiter Life Line.

Transaction Overview

Opportunity to invest up to INR 3,500 mn as primary growth capital

Investors	Paragon and Co-investors
Transaction	- Investors to infuse up to INR 3,500 mn as primary growth capital - Post investment shareholding: Paragon (including co-investors) - 11.5%, Founders 88.5%
Origination	Proprietary deal based on theme work done by Paragon
Valuation	- Pre-money equity valuation: INR 27,000 mn - EV/NTM EBITDA: 16.1x
Exit rights	- Promoters/Company to provide exit within 48 months from closing - Exit rights include (a) QIPO (b) Sale to strategic/financial investor (c) Company Buyback and (d) Drag Along
Upside Share	On exit, Investors to share incremental proceeds beyond 25% net IRR with Promoters divided equally
Other Key Rights	- Right to appoint 1 Board Director and 1 Observer; Liquidation preference with 1x - Other standard events of default, representations and warranties and minority reserved matters
Co-Invest Economics	TBD

Platform Overview

All hospitals are profitable with two units registering EBITDA margins >20%

Key Parameters	Unit 1 (Flagship)	Unit 2	Unit 3
Vintage	2008	1992	2023
Bed capacity	510	118	220
FY25 Revenue (INR mn)	4,789	434	975
FY25 EBITDA margin	21%	25%	12% ²
Hospital ROCE % ¹	32%	44%	12%
Capex per bed (INR mn)	6.5	2.1	4.7
Key specialties	• Onco (22%) • Ortho (20%) • Neuro (12%)	• Internal Medicine (36%) • General Surgery (11%) • Ortho (10%)	• Internal Medicine (15%) • Ortho (12%) • Gastro (12%)
Growth drivers	• Private insurance and govt. scheme rate revisions • Gross margin improvement expected across pharmacy and consumables	• Addition of new specialties and yearly rate revisions • Cost efficiency measures	• Addition of 37 beds and occupancy ramp up • Private insurance and govt. scheme rate revisions

1. Hospital ROCE is calculated as FY25 Hospital EBITDA / Average Hospital Gross Block

2. Unit 3 is recently commissioned and will fully ramp up in the next 2 years to cross 20% EBITDA margins and optimum ROCE > 25%

3. FY25 revenue for the entity is INR 6,479 mn which also includes peripheral units apart from the 3 hospitals shown above

Growth strategy and pipeline

Mix of brownfield acquisitions and select greenfield projects in existing micro-markets

Hospital acquisition strategy

- Expansion to be in contiguous regions driven by a combination of brownfield greenfield growth
- Stated greenfield strategy is effectively brownfield-led with new units largely set up as extensions of or in close proximity to existing facilities
- Unit 4: Acquired via NCLT¹ in Nov-25; will be an onco-led facility with expected commissioning in Apr-26
- Unit 5: Extension to the flagship facility (Unit 1) with land already acquired
- Unit 6: Close to Unit 3 with onco availability and an eventual bed capacity of 1,000 beds
- Units 7, 8 and 9: Brownfield acquisitions to be identified

Immediate pipeline of hospitals

#	Operating beds	Status	Opening date	Type
Unit #4	330	Acquired in Nov-25	Apr-26	Brownfield
Unit #5	175	Land acquired	Mar-29	Unit 1 extension
Unit #6	200	Discussions underway	Mar-30	Close to Unit 3

Management overview

The management has demonstrated strong execution capability, having scaled from a single hospital to becoming a leading North India chain through a combination of greenfield and brownfield plays

	Experience
Founder Doctor	• Intensivist and first-generation doctor entrepreneur with 34+ years of healthcare experience • Established Care in 1991 and scaled it from a 5-bed clinic to 800+ bed platform • MBBS and MD (Internal Medicine) (1984–88) Paragon View: Founder with humble beginnings who has scaled a profitable and respected healthcare institution over three decades. Well-regarded across North India's medical and healthcare fraternity. Provides strategic direction and involved in critical decisions
Nephew 1	• 15+ years with Care • Chartered Accountant by qualification and leads overall strategy and finance for the Group Paragon view: Heads finance and strategy, oversees procurement, drives expansion via greenfield and brownfield acquisitions. Has played a key role in expansion of the chain
Nephew 2	• 15+ years with Care • Leads projects and expansion initiatives for the organisation • Holds an MBA from SP Jain Institute of Management & Research Paragon view: Plays a quasi-COO roles in charge of execution of new hospitals to ensure timely commissioning and integration with the chain
CFO	• 23+ years of experience across banking, with deep expertise in healthcare finance, corporate banking (Emerging Corporate Group), capital markets, commodity markets, operations, and retail banking • Spent 13+ years at HDFC Bank as Vice President and Unit Head • MBA in finance from a reputed business school in India Paragon view: Joined Care as CFO four years ago. Has a strong control on finance and systems and appears to be fiscally prudent. Has the trust of the Founder group.

Operational Benchmarking

Strong capital efficiency and best-in-class economics among listed peers

As of FY25	Project Care										
# hospitals	3	45	21	17	20	18	15	5	5	3	18
Avg # beds / unit	283	195	195	290	287	288	154	608	321	354	287
ARPOB / day (INR)	45,288	60,724	66,301	73,900	43,562	39,955	41,377	62,945	30,829	60,600	45,000

Gross Fixed Asset Turnover	1.3x	1.3x	1.0x	1.0x	1.6x	0.9x	1.1x	1.1x	1.1x	1.0x	1.1x
ROCE % ¹	20%	18%	12%	15%	26%	15%	6%	24%	17%	24%	9%
Gross Block / bed (INR mn)	6.0	9.9	15.6	17.5	4.8	6.4	3.5	10.8	4.8	11.9	6.6
CONGO mix ²	67%	62%	55%	60%	74%	57%	70%	59%	42%	50%	50%
Govt. scheme mix	23%	10%	21%	19%	19%	18%	23%	14%	37%	1%	6%

- Project Care compares favorably to the listed peers with robust profitability metrics
- There are multiple private multi-specialty hospital chains in India that provide tertiary and secondary care. Most of these hospitals have a regional / geographical focus and operate at a varied levels of scale and affordability
- Most publicly listed hospitals chains operate on a high capex base with fixed asset turnover ratio of ~0.9x-1.1x

Source: IIFL, Capital IQ; As on 5th Dec 2025

1. ROCE (%) is calculated ex-cash

2. CONGO is an acronym that refers to high-margin complex specialties including cardiology, oncology, neurology, gastroenterology and orthopedics

Business Plan – Paragon case (1/2)

Key Metrics	FY26E	FY32E	Paragon assumptions
# hospitals	4	9	Addition of 5 hospitals including 2 greenfield and 3 acquisitions/brownfield over the next 3 years. 2 out of the 5 are identified and in progress
# of beds	1,215	2,340	Addition of 1,125 over the next 5 years based on above expansion format with a potential to add 800 more beds in Unit 5 beyond FY32
Occupancy % ¹	65%	67%	To reach optimum occupancy across all the hospitals by FY32
ARPOB (INR)	48,555	51,487	- For existing hospitals, assumed 7-8% in the next 2 years due to hospital rates revision and flat 5% post that including case mix and pricing improvement - Assumed modest growth of 5-8% for new hospitals based on addition of specialties and improved brand positioning post acquisition
# ONCO facilities	1	3	Currently, only flagship unit has a LINAC ; All the identified new units will have a provision for LINAC except Unit 5 (acquisitions not included)
Capex per bed (INR mn)	6.6	7.0	Capex per bed is INR 6.6 mn for existing 3 units ; Since, the expansion is in the same micro-markets, we expect to maintain similar capex per bed levels
EBITDA %	21.2%	23.8%	Existing hospitals will improve margins due to operating leverage while the new hospitals will reach optimum margins by FY32

1. Occupancy on census beds

Business Plan – Paragon case (2/2)

- Existing hospitals expected to contribute 44% of revenue and 48% of EBITDA in FY32E
- We expect to add two greenfield hospitals (extensions to current facilities) and three brownfield acquisitions in surrounding micro-markets between FY27 and FY30
- We will further validate the assumptions during diligence

	31-Mar-26	31-Mar-31
NTM period	FY27	FY32
1yr fwd EBITDA (NTM)	1,874	6,268
NTM EV/ EBITDA Multiple	16.1x	23.0x
Pre money Equity Valuation	27,000	140,587
Implied P/ NTM E	37.5x	36.3x
Primary Infusion	3,500	
Equity Valuation (Post Money)	30,500	1,40,587
PPGF Investment Amount (inc co-investors)	-3,500	13,410
PPGF Stake	11.5%	11.5%
Gross IRR	30.8%	
Gross MoIC	3.8x	
Hold period	5.0	years

Returns sensitivity

Exit NTM EV/EBITDA	20.0x	21.0x	22.0x	23.0x	24.0x	25.0x
Gross IRR	28.6%	29.4%	30.1%	30.8%	31.5%	32.2%
Gross MoIC	3.5x	3.6x	3.7x	3.8x	3.9x	4.0x

- Assuming an NTM EV/EBITDA between 20x-25x, we estimate Gross IRRs in a range of 28.6% to 32.2% and MoICs between 3.5x and 4.0x respectively over the tenure of the investment

1. Entry assumed on NTM EBITDA (FY27) and Exit on NTM EBITDA (FY32)
2. Exit proceeds in FY31 are after deducting upside share paid to the promoters as stated in the transaction structure
